VISCUM ALBUM :

**RECEIVED**

**DEC 20 2002**

**TECH CENTER 1600/2900**

**AMENDMENT IN RESPONSE TO NOTICE TO COMPLY WITH 1.821 ET SEQ.**

This response is provided to address the Notice to Comply (Paper No. 23), mailed November 14, 2002. This response is timely filed on December 9, 2002, in advance of the deadline of December 14, 2002 set by the Examiner in the Notice.

Kindly amend the application as follows:

**In the Specification:**

Please delete the Sequence Listing submitted September 5, 2002, and substitute the substitute Sequence Listing enclosed herewith.

**REMARKS**

Claims 1-27, 29, 37, and 47-49 remain pending in the application.

In Paper No. 23, the Examiner stated that the diskette submitted by the application of September could not be read by the PTO's computer system; presumably the diskette was damaged by PTO security measures, as the data on the disk was readable when posted to the U.S. Patent and Trademark Office by the applicants.
